**SPECIFIC ALLEGATIONS REGARDING  
PLAINTIFF DAVID STOJCEVSKI, DECEASED**

28. Plaintiff restates and re-alleges the allegations contained in paragraphs 1 through 27 as though fully set forth herein.

29. Upon information and belief, after David was recommended for the Medical Detoxification Unit in the Macomb County Jail, David was placed in Holding Cell No. 4 in the Jail booking area for approximately 29 hours, at which time David was moved to second floor cell 2B01 on June 12, 2014. David's housing assignment remained 2B01 until he was placed in the mental health unit in Mental Health Cell No. 1 (hereinafter MH01) on June 17, 2014.

30. During June 12, 2014 through June 15, 2014, various Defendant CCS employees gave David his COWS assessments, and on June 15, 2014, Defendant DEEANN PAVEY noted that David's Detox was "complete". David remained in cell 2B01 until June 17, 2014.

31. On June 17, 2014, Defendant LICAVOLI found David laying on his back in his cell, unable to speak and blinking his eyes. David was then taken to ME05 for medical examination at 7:50 a.m. on June 17, 2014.

32. After the medical examination, David was returned to 2B01. Sometime in the afternoon of June 17, 2014, Defendant Corrections Deputy CAMPAU filed a referral to mental health noting that David was "hallucinating talking to people that are not there and also stated that he died earlier today." David was then placed in MH01 on or about 3:48 p.m. on June 17, 2014.

33. On or about June 17, 2014, Defendant BERTRAM observed David sitting on the floor of MH01 and David was commenting that: "all his organs, but 10 percent of his heart was removed and his arms shredded a couple days ago," while David was in the jail. During that same interaction and conversation between Defendant BERTRAM and David, Defendant BERTRAM learned and became aware that before incarceration in the Macomb County Jail, David "was taking 4mg of Xanax daily for pain and oxycodones for pain."

34. David was also observed by Defendant HARRISON "twitching on the floor " of MH01, and in response to the observations noted above, Defendant BREEN took David's vitals, which did not include his weight measurement, and "cleared" David.

35. On June 18, 2014 Defendant Nurse Supervisor CUENY performed a medical assessment on David, learned from David that "he took Klonopin 2-3 tabs at home for anxiety, that it was prescribed, but he could not recall the name or location of the pharmacy." David also informed CUENY that he had previously been hospitalized for anxiety, but could not tell Defendant CUENY what hospital he had been in. Defendant CUENY discussed that assessment with Defendant DR. SHERMAN, but "no new orders were received at this time". Defendant CUENY recommended that David remain housed in "MH-high observation, continue with COW protocol as ordered".

36. Notwithstanding the above-cited information received directly from David on June 17, 2014 and June 18, 2014 by Defendant CUENY, Defendant BERTRAM, and Defendant DR.

SHERMAN, and notwithstanding the observations by Defendants LICAVOLI, CAMPAU, and HARRISON, and potentially other unidentified jail personnel and Defendant CCS employees and agents, COW protocols were not commenced, medication was not ordered, and jail personnel noted above ignored David's pleas for necessary medical care and treatment.

37. Three to four days later, on June 21, 2014, David specifically asked Defendant BROCK if he would be receiving the medication within the jail, Defendant BROCK informed David that the "medication has not been ordered at this time".

38. Notwithstanding the clear knowledge cited above and confirmed in Defendants' records, regarding David's medications prescribed to him prior to incarceration, all of the named Defendants herein were so deliberately indifferent to David's mental health and medical needs, that the Defendants, named and unnamed in this litigation, monitored, watched and observed David spend the final ten days of his life suffering excruciating benzodiazepine withdrawal symptoms.

39. Notwithstanding the clear knowledge, cited above and confirmed in Defendants' own records, regarding David's medications prescribed to him prior to incarceration, all of the named Defendants herein were so deliberately indifferent to David's mental health and medical needs that not a single named or unnamed Defendant made one phone call or internet inquiry the State of Michigan MAPS data system, that would have readily informed all of the Defendants that David was indeed telling the truth about his need for the three medications prescribed for him in the months leading up to his incarceration--Xanax, Klonopin, and Oxycodone--the first two of which are benzodiazepine medications used to treat anxiety and drug withdrawal, while the third is used for pain relief.

40. Instead of taking any of the actions cited above, the Defendants herein, whether identified at this time or not, chose individually and/or jointly, to intentionally, and with deliberate indifference to David's legitimate medical and mental health needs, ignore those needs.

41. As Defendants' own records reflect, all of the Defendants, named or as yet unidentified, jointly and with deliberate indifference failed to act in any meaningful way to save David's life, until it was far too late for David to survive the ravages of benzodiazapene withdrawal, the cause of David's death.

42. As Defendants' own records and videos demonstrate, Defendants watched David as his mental and medical health deteriorated so dramatically during the final ten days of his life in Defendants' jail, that David lost at least 50 pounds of his 195 pound weight during the sixteen (16) days of his incarceration, a weight loss that Defendants knew or should have known was compromising David's ability to survive during Defendants' self-ordered 24 hour video monitoring of David from June 17, 2014 through June 27, 2014.

43. Defendants' actions and inactions demonstrated deliberate indifference to David's mental and physical well being as David suffered numerous days of excruciating pain and misery caused by the visibly apparent symptoms of benzodiazapene withdrawal, that ultimately took his life.

44. Moreover, Defendants' videos demonstrate David's excruciating pain and suffering, inflicted with deliberate indifference by Defendants during the many days prior to his June 27, 2014 death.

45. Defendants' knew or should have known of David's need for immediate and emergency medical care many days before David died on June 27, 2014.

46. Defendants' deliberate indifference to David's constitutionally protected rights is further demonstrated by Defendants' MACOMB COUNTY, WICKERSHAM, CASKEY and Defendant BINGHAM's failure to meet their legal obligations to honor and implement a June 19, 2014 Amended Disposition Order from the 39<sup>th</sup> District Court whereby David was to be released upon his enrollment in the Community Corrections March Program, a program that allows for release of inmates such as David to perform community services in place of further jail incarceration.

47. By failing to meet their obligation to fully implement the afore-cited court order, Defendants cited above caused David to stay in the Macomb County Jail, contrary to the 39<sup>th</sup> District Court Amended Disposition Order allowing for David's release.

48. Despite clear and unequivocal knowledge of David's need for medication, his delicate medical condition and deteriorating mental state, the Defendants, named and unnamed, with deliberate indifference did not initiate or take proper precautions to protect David or to properly and adequately monitor David's physical health.

49. Defendants, and/or their employees and agents ignored David's symptoms and left him in the holding cell without further monitoring and/or assistance.

50. Defendants and/or their employees and agents were obligated to perform routine security checks on David as it relates to his prescription drug withdrawals.

51. On or about June 27, 2014, at approximately 5:20 p.m., Defendants found David struggling to breathe, and despite Defendants all-too-late and ineffective efforts to revive David, he was rushed by ambulance from Macomb County Jail to McLaren Regional Hospital in Mt. Clemens, Michigan. David's weight was measured at 145 pounds by the emergency medical technicians in the ambulance. David's confirmed weight loss during the 16 days of incarceration was fifty (50) pounds, a total weight loss of over twenty-five (25%) of his total body weight.

52. Merely one hour and thirty-five minutes after several Defendants responded to David's desperate condition, Defendant was pronounced dead at McLaren Regional Hospital at 6:55 p.m.

53. David's death certificate dated July 3, 2014, and amended on September 10, 2014 found that David's cause of death was "Acute Withdrawal from Chronic Benzodiazepine, Methadone and Opiate Medications", and that the approximate interval between onset of the cause of death and the death itself was "Weeks".

54. David's autopsy report reflects a final diagnosis and cause of death as: "Acute Withdrawal from Chronic Benzodiazepine, Methadone and Opiate Medications, Dehydration with hypernatremia, and Seizure/seizure-like activity".

**SPECIFIC ALLEGATIONS REGARDING PLAINTIFF VLADIMIR STOJCEVSKI**

55. Plaintiff restates and re-alleges the allegations contained in paragraphs 1 through 54 as though fully set forth herein.

56. Upon information and belief, Vladimir was placed in Holding Cell No. 3 (HC-3) in the Jail booking area for approximately 2 days, at which time Vladimir was transferred to Detoxification Unit Cell No. 2 on or about June 14, 2014. Vladimir's housing assignment remained in the Detoxification Unit until June 16, 2014.

57. From on or about June 11, 2014 through June 15, 2014 Vladimir had seizures accompanied by vomiting spells and incontinence.

58. Notwithstanding Vladimir's numerous requests to be allowed to clean himself, and to examine his lower extremity for injury or disease, various Defendant CCS employees and Macomb County jail personnel refused to allow Vladimir to properly wash his lower extremity and behind, and refused Vladimir adequate medical care, the refusals evincing the Defendants' deliberate

indifference to Vladimir being exposed to a substantial risk of physical and mental harm related to Defendants refusals noted above.

59. For several days, and as a result of being refused the very basic request for medical care, and to cleanse his body to remove the vomit and feces from his upper and lower extremities, Vladimir suffered physical and mental injury, great indignity, embarrassment, and ridicule within the Macomb County Jail from inmates, as well as Defendants' employees and agents.

60. On or about June 23, 2014, Defendants heeded Vladimir's numerous and long-standing requests for medical care, and Defendant WICKERSHAM and Defendant CCS decided to release Vladimir from the jail on June 23, 2014 to the McLaren Regional Hospital for medical examination, many days after Vladimir demonstrated the need for medical care that could only be performed in a hospital setting.

**COUNT I:**  
**ESTATE OF DAVID STOJCEVSKI, DECEASED, AND VLADIMIR STOJCEVSKI**  
**VIOLATION OF 42 U.S.C. § 1983 AND THE**  
**8<sup>TH</sup> AND 14<sup>TH</sup> AMENDMENTS OF THE UNITED STATES CONSTITUTION**

61. Plaintiffs restate and re-allege the allegations contained in paragraphs 1 through 60 as though fully set forth herein.

62. As citizens of the United States and a resident of Macomb County Jail located in the State of Michigan, Vladimir and David were entitled to all rights, privileges and immunities accorded to all incarcerated citizens of the State of Michigan and of the United States.

63. At all times relevant hereto, all Defendants were acting within the course and scope of their employment with the County of Macomb and/or CCS and were acting under color of state law with the authority granted to them as corrections officers or correctional healthcare providers and/or managers and/or shift supervisors.

**IHRIE O'BRIEN**

64. At all times relevant hereto, pursuant to the Eighth and Fourteenth Amendments of the United States Constitution, Plaintiffs had a right to be free of cruel and unusual punishment and to receive proper and adequate medical care while incarcerated and under the custody and control of MACOMB COUNTY at the Macomb County Jail and under the supervision and control of the Defendants.

65. At all times relevant hereto, Vladimir and David each had a right to adequate and sufficient medical care and treatment such that their medical and mental conditions would be protected, and in David's case, his life would be preserved, and that both David and Vladimir at all times would be free from needless unjustified and preventable pain, suffering and deterioration of their health and well-being.

66. At all times relevant hereto, Defendants with malice, recklessness, and a callous and deliberate indifference to David's federally protected rights to be free of cruel and unusual punishment and to medical care that adequately treated David's serious medical needs, knowingly allowed David to suffer through withdrawal symptoms, which ultimately resulted in his death, without adequate nourishment, fluids, without necessary medication, and without appropriate medical/mental health care, all of which combined in whole or in part to cause pain, suffering, deterioration of health and ultimately the death of David, that took place over the time frame noted above.

67. The Defendants specifically and with deliberate indifference refused to provide the very basics of life to David during the time frame noted above, notwithstanding the Defendants knowledge of the obvious and excruciating pain being suffered by David during the throws of his benzodiazepine withdrawal that lasted throughout the time he was incarcerated.

68. The actions cited above violated a clearly established constitutional rights of which Defendants were aware or should have been aware, namely, inter alia, the right to be free of cruel and unusual punishment and the right to medical care that adequately treated David's serious medical needs and Vladimir's serious medical needs caused by the Defendants' knowing allowance of unsanitary conditions to persist.

69. The Defendants restricted David's access to a basic necessity to maintain his life, that being medication that had been specifically prescribed by his physician prior to incarceration.

70. The Defendants, failed to communicate information to supervisors and others in charge of the care and custody of David concerning his medical and living conditions in his cell.

71. The Defendants, ignored facts that David was exhibiting obvious signs of withdrawal, starvation, and dehydration and kept David locked in his cell immediately prior to his death.

72. The actions of the Defendants violated a clearly established constitutional right of which Defendants were aware or should have been aware, namely, inter alia, Plaintiffs right to adequate medical care and treatment for Plaintiff's serious medical needs.

73. The actions of the Defendants, created a substantial risk of harm to the health and safety of David.

74. The Defendants, on numerous occasions failed to obtain, summon or follow through with requests for medical care and treatment after observing obvious signs and symptoms of withdrawal, dehydration, and starvation/anorexia suffered by David.

75. David's health and well-being began to deteriorate as a result of withdrawal from medications as well as not receiving fluids and nourishment. The Plaintiff exhibited numerous

symptoms of withdrawal, all of which were readily observable and visible to all Defendants during a minimum of ten days prior to David's death.

76. Many days prior, and shortly before David's death on June 27, 2014, David was experiencing a medical emergency, brought upon by the conditions identified above. The medical emergency manifested itself in the form, among other things, of anxiety, profound agitation and restlessness, suicide ideation, feelings of unreality, dysphoria, hot and cold spells, hallucinations, increased urinary frequency, loss of appetite and weight loss, anorexia, muscle spasms, cramps or fasciculations, perspiration, photophobia, rapid eye movement, delirium tremens, convulsions, unusual and incoherent behavior, and apathy.

77. During the time that David's health continued to deteriorate, the various Defendants, pursuant to the Eighth Amendment, were required to provide and/or obtain adequate medical care for David, including, but not limited to electrolyte replacement, increased fluid intake, increased salt intake, intravenous re-hydration, cardiac monitoring and/or hospitalization. To the contrary, however, the various Defendants with malice, recklessness and callous and deliberate indifference failed to provide or obtain care and treatment necessary to save David's life.

78. The actions and/or omissions of the various Defendants noted above constituted a deliberate indifference to the serious medical needs of David and Vladimir and demonstrate a reckless, willful and wanton disregard for the health and safety of David and Vladimir thereby denying both Plaintiffs the constitutional right to be free from cruel and unusual punishment as provided by the Eighth Amendment to the United States Constitution.

79. As the direct and proximate result of the actions and/or omissions of the Defendants, David suffered great physical pain, discomfort, loss of mental capacity, humiliation, degradation and suffering.

81. Upon information and belief, Vladimir also suffered severe pain, discomfort and injury related to Defendant's denial of allowing him to adequately and timely cleanse himself.

82. As the direct and proximate result of the actions and/or omissions of the Defendants, David suffered an excruciatingly painful and slow death on June 27, 2014.

83. As the direct and proximate result of the acts and/or omissions of the various Defendants, Plaintiff Estate and Vladimir Stojcevski have sustained and are entitled to compensation for the following damages, including, but not limited to: .

- a. Reasonable medical, hospital, funeral, and burial expenses;
- b. Economic costs and/or damages (past, present and future);
- c. Loss of love;
- d. Reasonable compensation for the conscious pain and suffering experienced by David and Vladimir while they were conscious during incarceration;

- i. Loss of expected inheritance;
- j. Loss of society and companionship; and
- k. Any and all other damages identified through the course of discovery otherwise available under Michigan Wrongful Death Act, *MCLA* § 600.2922.

84. By the aforementioned actions and/or omissions, Defendants have deprived Vladimir and David of the rights secured by the Eighth and Fourteenth Amendment to the United States Constitution and of 42 U.S.C. § 1983.

WHEREFORE, Vladimir Stojcevski, as Personal Representative of the Estate of David Stojcevski, Deceased, and Vladimir Stojcevski, individually, respectfully request that this Honorable Court enter judgment in Plaintiffs favor and against all Defendants, as follows:

A. Compensatory non-economic and economic damages in excess of \$75,000.00, including but not limited to all damages recoverable under the United States Constitution and/or 42 U.S.C. § 1983 and/or the laws of the State of Michigan including but not limited to the Michigan Wrongful Death Act;

B. Punitive damages;

100. Pursuant to 42 U.S.C. § 1983, as well as the Fourth and Fourteenth Amendments to the United States Constitution, Defendants MACOMB and WICKERSHAM owed David certain duties to properly supervise, monitor and train its correctional officers, medical staff, nursing staff, and mental health staff so as to monitor and supervise the jail's inmates so that they would detect

serious medical conditions and facilitate prompt and immediate medical, nursing, or mental health attention and/or transport to a hospital Emergency Room.

101. That Defendants, in their representative and official capacities, have maintained a custom and policy of improper training and supervision of their employees, agents and representatives. Defendants are not protected by governmental immunity when following a policy that deprives individuals of their constitutional rights. *Monell v N.Y. City Dep't of Soc. Servs.*, 436 658/ 690-91, 692 (1978).

102. That Defendants were aware of previous incidents where individuals who were incarcerated at the Macomb County Jail were not afforded proper medical treatment, mental health treatment, and/or nursing care, specifically as to mental health referrals, observations and adequate care for inmates withdrawing from various medications and drugs.

103. That Defendants were aware of the custom and practice of correction officers/deputies and/or medical staff and/or mental health staff and/or nursing staff failing to gather necessary and easily accessed information regarding inmates prescribed use of medications prior to incarceration at the Macomb County Jail.

104. The Defendants owed David the following and duties and obligations:

- a. To use due care and caution;
- b. To adequately and properly promulgate guidelines and policies that comply with the requirements of 42 U.S.C. § 1983 regarding the incarceration of inmates and the supervision of inmates, especially those who are mentally and emotionally and physically unstable, or those who are taking prescribed medication for pre-existing drug-dependency conditions, psychiatric or psychological problems;

- c. To adequately and properly train and supervise deputies and employees, agents or representative of the Macomb County Jail under their supervision on the proper method of supervising prisoners and providing for their medical needs and on effectively controlling prisoners who have or are suspected of suffering from pre-existing drug-dependency conditions requiring medications, or who are suffering psychological or psychiatric problems;
- d. To adequately and properly train and supervise deputies and employees, agents or representatives of the Macomb County Jail under their supervision on the proper method of assessing the difference between real and actual symptoms of benzodiazapene withdrawal and false or "fake" symptoms of such withdrawal; and
- e. To avoid hiring or selecting individuals who it knows or should know are incapable of performing their responsibilities or who are likely to misuse or abuse the power conferred on them as employees of the Macomb County Jail, or who are so deliberately indifferent to inmates medical and mental health conditions so as to make rash and irresponsible conclusions without basis in fact pertaining to inmates presented symptoms.

105. That Defendants breached these duties via their policies, procedures, regulations, customs and/or lack of training and thus exhibited a reckless indifference toward its prisoners and David specifically, in the following ways, including, but not limited to:

- a. Defendants' failure to staff the jail with competent medical personnel so that a mental health professional;

- b. Defendants' failure to monitor their correctional officers and medical personnel to ensure that they adequately monitor and supervise inmates who have serious medical needs;
- c. Defendants' failure to have proper policies and procedures, and training to deal with inmates in the observation cell and ensure that the policies and/or procedures are followed, which include serial examinations by competent and licensed medical, nursing and mental health personnel like registered nurses (RN), psychologists and/or Doctors, as well as its failure to ensure the correctional officers, mental health staff, and nursing staff conduct timely and adequate rounds and record their observations of the inmates every 15 minutes as required by their own policies and/or procedures;
- d. Defendants' failure to require that a nurse, doctor or mental health Professional perform a full and complete examination of a prison held in a medical observation cell, at least once per day;
- e. Defendants' failure to have proper policies and procedures, and training to deal with the potential of Macomb County and CCS employees from adopting an institutionalized "group think" mentality in the custody and care of inmates who require unique and adequate care, such as David required in this matter;
- f. Defendants' failure to have proper policies and procedures in place to deal with jail overcrowding in the high observation units of the facility;
- g. Defendants' failure to fully investigate and discipline its correctional officers and/or medical/mental health personnel who do not abide by its policies and

procedures relative to providing medical care and/or mental health care for serious conditions;

h. All other breaches learned through the course of discovery.

106. That Defendants trained their officials and/or employees and agents in such a reckless and grossly negligent matter, that it was inevitable that the officials would provide such inadequate care to an inmate such as David, in a monitored cell, such that Defendants' employees would watch David die a slow and painful death caused by benzodiazepine withdrawal, and associated symptoms, all of which were, or should have been obvious to Defendants' employees and agents, and which were so obvious as to make it readily apparent to any well-trained corrections officers, nursing staff, medical staff, or mental health staff that David was indeed exhibiting signs of a fatal withdrawal from prescribed benzodiazepene medications.

107. The failure of the Defendants to provide training and supervision regarding the proper care of inmates amounts to deliberate indifference to the safety and lives of the inmates of the Macomb County Jail and particularly David.

108. Defendant MACOMB COUNTY and WICKERSHAM are supervisory officials who knew, or in the exercise of reasonable care, should have known that individual prison officials had engaged in misconduct and other violations of the constitutional rights of prison inmates at the Macomb County Jail, more specifically David.

109. Despite knowledge of its aforesaid pattern and practice, the Defendants failed to properly investigate the improper practices and to supervise and train the prison officials at the Macomb County Jail.

110. Defendants developed a "hands off" policy or custom with regard to the omissions

116. While David was in his holding cell suffering the obvious symptoms of benzodiazapene withdrawal, dehydration, and starvation, Defendants continued to neglect David's medical, psychological, emotional and mental health needs that would be obvious to any reasonable person monitoring David for 24 hours a day, or for any reasonable person making casual observations of David.
